# INDEX

**IEE Review Volume 47**
**January–November 2001**

## Subject index

### Communications

Mesh networks for broadband access, by T. Fowler January, p17
Broad is the way, by T. Mitchell January, p35
ITU fixes standard for digital AM January, p6
Galileo on the move, by L. Sharpe March, p10
A ray of light, by R. Dettmer March, p32
The ultimate green satellite?, by M. Williamson May, p8
£3m test facility opens its doors July, p2
Radio spectrum usage review July, p2
Yamaha moves to cut cable clutter July, p4
Mobilising packet data, by R. Dettmer July, p9
A neat idea, by R. Dettmer September, p19
Contracts placed for high-speed pan-European research network September, p2
Satellite service brings broadband access to SMEs September, p2
Learning from i-mode, by G. Vincent November, p13
Measurement and the networked future, by D. Ireland and P. Trevisan November, p49
Broadcasting to the battlefield November, p2

### Computing and control

IST programme call goes out to Europe January, p2
Embedding Linux, by A. Lennon May, p33
Changing processors, by R. Dettmer May, p38
Gatwick Airport standardises on Honeywell equipment July, p2
Fieldbus goes offshore, by J. Crook July, p31
Setting a standard for building control, by L. Sharpe July, p35
Marconi builds on success in China November, p2

### Electronics

Something in the air, by D. Harwood January, p10
Have null will fly, by M. Crossfield January, p31
Controlling traffic with radio, by E. Bullimore January, p40
UK team to study counterstealth January, p4
Routing for 1355 January, p4
Internet-based calibration March, p4
White light LED on sale this year May, p4
TV gets personal, by A. Oliphant and B. Scudamore September, p9
Boxing clever, by V. Seferides November, p41

### Energy and the environment

Beyond the harbour wall, by B. Grainger and T. Thorogood March, p13
Routes to offshore consent unravelled March, p6
Sainsbury's opens world's first 'low energy supermarket' March, p8
Sustainability contacts online March, p8
Brazil's electricity renaissance, by F. Acker May, p19
UK presses ahead with offshore wind farms May, p4
Merseytravel tests electric bus May, p4

### Management and education

Watch out January, p4
Women needed to overcome ICT skills shortage January, p6
Wanted: 270 000 recruits for engineering March, p4
Hunt is on for Britain's bright sparks March, p6
'Give students time to catch up with basic maths,' universities are told March, p8
UCL moves into Adastral Park May, p2
Altran seeks 500 UK recruits July, p4
Good relations, by P. Clapham July, p5
Are you protecting your intellectual property?, by V. Irish September, p15
Making the team, by G. Smith September, p33
The case for configuration management, by C. Kidd September, p37
Martin scores double success at YEDA Awards September, p6
Young Engineers design buggy for jewel theft September, p6
Sira accredited to issue IEC 61508 certificates November, p4

### Manufacturing and design

UK manufacturing gets a recipe for success January, p2
Mission: possible January, p2
Directory of UK systems design January, p6
In it for real, by R. Dettmer March, p19
Industry pilots machine vision March, p2
A laggard no more, by R. Dettmer May, p16
Helping B2B suppliers to create a strategy for e-business September, p2
Free WEEE advice offered to SMEs September, p4

### New technology

Hybrid vigour, by R. Dettmer January, p23
Engineering start-ups invited to use UKAEA expertise January, p6
Funding boost for nanotechnology July, p2
Paying for energy the smart way, by J. Cowburn July, p17
The new rotarian, by R. Dettmer July, p23
Innovation award offers €1m prize September, p4
Euro-standard rail signalling system goes live November, p2
Single-electronics research paves the way for quantum computation November, p4
Camera designed to see through fog could cut security queues at airports November, p5

### Politics, social impact and history

Engineering sustainable development, by R. Jardine January, p29
Climate change, technology and realpolitik, by J. Watson March, p25
MPs' charter highlights role of science and engineering March, p2
RAL celebrates 70 years of ionospheric sounding March, p6
Doctor Volts, by D. Fishlock May, p23
Putting computers to work, by D. Caminer September, p27
Rebuilding the Bombe, by D. Lenton November, p7
The IEE for the 21st century, by B. Mellitt November, p25

### Power

Regulating mains pollution, by D. Maule March, p35
Cap that current, by P. Malin and D. Klaus March, p41
Tighter safety rules proposed for supply network March, p2
ABB secures £23 million London Underground order March, p8
Cabling Eden May, p2
Siemens to supply control system for Turkish power company May, p2
ABB wins record Royal Navy order May, p4
GAMBICA publishes guide to harmonics July, p4
PB Power leads upgrade projects in NE England July, p4
Oil-free power transformer's first sale in North America September, p2
MEM delivers record switchgear order September, p4
When downtime is a disaster, by L. Sharpe November, p19
ABB trackside circuits protect railway line November, p2
Siemens builds converter stations for NI power link to Scotland November, p6

## Author index

Acker, F.: Brazil's electricity renaissance May, p19
Adkins, P.: Project management in the real world (letter) March, p48
Arora, R.K.: A bit of a tribute (letter) November, p59
Bartlett, A.: Not quite a renaissance (letter) July, p41
Bird, G.J.A.: Sound advice (letter) July, p40
Bone, C.: Statistical ignorance (letter) January, p50
Bullimore, E.: Controlling traffic with radio January, p40
Bullimore, E.: Roadside radar (letter) May, p30
Caminer, D.: Putting computers to work September, p27
Clapham, P.: Good relations July, p5
Corcoran, T.: Delayed pips (letter) September, p30
Cowburn, J.: Paying for energy the smart way July, p17
Crackett, J.: Volunteer for some serious fun (letter) January, p50
Crook, J.: Fieldbus goes offshore July, p31
Crossfield, M.: Have null will fly January p 31
Darney, I.: Don't just leave EMC to the experts (letter) January, p49
Deacon, G.M.: Hybrid routes (letter) March, p47
Dettmer, R.: Hybrid vigour January, p23
Dettmer, R.: A laggard no more May, p16
Dettmer, R.: Changing processors May, p38
Dettmer, R.: In it for real March, p19
Dettmer, R.: A ray of light March, p32
Dettmer, R.: Mobilising packet data July, p9
Dettmer, R.: The new rotarian July, p23
Dettmer, R.: A neat idea September, p19
Evans, G.: Dr Volts (letter) September, p32
Finlay, J.: Electric vehicles in Kathmandu (letter) November, p59
Fishlock, D.: Doctor Volts May, p23
Fowler, T.: Mesh networks for broadband access January, p17
French, J.: Information wanted on Cockerell (letter) January, p51
Freris, L.: The case in favour of wind power September, p30
Gardner, P.: The case in favour of wind power September, p30
Gayfer, J.: The case in favour of wind power September, p30
Gayfer, J.: Engine trouble (letter) November, p59
Goodship, G.: Don't worry about the pips (letter) November, p58
Grainger, B and Thorogood, T.: Beyond the harbour wall March, p13
Hammond, B.: Evidence of leaks (letter) January, p51
Harrington, A.R.: Support for inventors (letter) May, p30
Harwood, D.: Something in the air January, p10
Hawker, P.: Would Blumlein's team have done better? (letter) November, p58
Hayter, J.: Buying time (letter) March, p48
Heap, R.: RICT response (letter) November, p59
Higham, T.: The case in favour of wind power September, p30
Hill, F.W.: Fighting for engineers (letter) January, p49
Holford, K.: Traffic control radar's shortcomings (letter) March, p48
Holford, K.: Vehicle detection's ingenious origins (letter) July, p40
Holland, D.: Global warming 'still a theory' (letter) May, p30
Huggins, E.: Temporary interference (letter) September, p31
Hulley, M.: Wind power: doing the sums (letter) July, p40
Humphrey, E.D.: A solution from the past (letter) January, p51
Ireland, D. and Trevisan, P.: Measurement and the networked future November, p49
Irish, V.: Are you protecting your intellectual property? September, p15
Jacobs, N.: Training with real projects (letter) January, p50
Jardine, R.: Engineering sustainable development January, p29
Jones, S.: Caught on camera (letter) November, p58
Kidd, C.: The case for configuration management September, p37
Kipnis, L.: Another alternative (letter) March, p47
Klaus, D. and Malkin, P.: Cap that current March, p41
Lawson, P.: Engineers need to value what people want (letter) July, p40
Lennon, A.: Embedding Linux May, p33
Lenton, D.: Rebuilding the Bombe November, p7
Lynch, C.: Electric transport (letter) March, p47
Lynn, C.: What marketing is really about (letter) March, p49
Malkin, P. and Klaus, D.: Cap that current March, p41
Maule, D.: Regulating mains pollution March, p35
Mellitt, B.: The IEE for the 21st century November, p25
Midwinter, J.: Nottingham is part of Marconi degree project (letter) January, p50
Mitchell, T.: Broad is the way January, p35
Oliphant, A. and Scudamore, B.: TV gets personal September, p9
Parkinson, P.: Embedding Linux isn't so simple (letter) September, p32
Reynolds, B.: Setting standards (letter) January, p49
Scudamore, B. and Oliphant, A.: TV gets personal September, p9
Seferides, V.: Boxing clever November, p41
Sharpe, L.: Galileo on the move March, p10
Sharpe, L.: Setting a standard for building control July, p35
Sharpe, L.: When downtime is a disaster November, p19
Sims, D.: A tale of two units (letter) January, p50
Smith, G.: Making the team September, p33
Spain, E.: Dr Volts (letter) September, p32
Thorogood, T. and Grainger, B.: Beyond the harbour wall March, p13
Vincent, G.: Learning from i-mode November, p13
Ward, A.: The pleasure of electric motoring (letter) July, p41
Watson, J.: Climate change, technology and realpolitik March, p25
Wheeler, J.S.: Let's stick with our existing meters (letter) September, p31
Whitehead, M.: Hybrid alternatives (letter) March, p47
Williamson, M.: The ultimate green satellite? May, p8
Young, J.R.H.S.: History for sale (letter) January, p51

## Book reviews

Beauchamp, K.: History of Telegraphy November, p63
Brown, L.: A Radar History of World War II July, p29
Burns, R.: John Logie Baird, Television Pioneer May, p41
Bussey, G.: Marconi's Atlantic Leap September, p26
Knight, U.G.: Power Systems in Emergencies July, p28
McLean, D.F.: Restoring Baird's Image November, p62
Raymond, E.S.: The Cathedral and the Bazaar January, p24
Sowter, C.V.: Marketing High Technology Services January, p24
Toko, K.: Biomimetic Sensor Technology July, p28
von Kroge, H.: GEMA: Birthplace of German Radar and Sonar January, p23
Wealleans, D.: The Organizational Measurement Manual May, p41
Willis, P. (Ed): Carrier-Scale IP Networks September, p26
